Blinds & Shutters

- the only magazine linking the trade with the specifier

The blinds industry in the UK covers a broad spectrum, from decorative to functional, domestic to commercial, and all sectors are served by one magazine – **Blinds &**

Shutters.

Established in 1952 as The

Blindmaker; Blinds & Shutters, now in its 69th year, is the longest running title for the blinds & shutters industry. It is the only independent title, and provides the most reliable source of information about the industry available.

Published quarterly, Blinds & Shutters discusses technical advances in both fabrics and components, design trends, retail issues, planning and environmental health and safety issues. Every issue also contains in-depth reports on the latest product developments from both BBSA members and their contemporaries.

The Blinds & Shutters editorial team prides itself on being active and involved in the market so it writes from within the industry rather than commenting from outside.

Materials Required

All advertisements should be supplied as digital files, which can be submitted via online file transfer or by e-mail (depending on file size). Various software packages are acceptable (QuarkXPress, Adobe InDesign, Adobe Illustrator or Adobe Photoshop); however, while we do not exclude PC files like Excel, Word etc, material generated from these programs are not generally suitable and conversion from RGB to CMYK can produce unexpected results. We therefore expect files to have been created in a recognised programme specifically for graphics.

Please contact the Production Department for full Mechanical Data.
